# Heavy-duty acid detergent for pipelines and dairy equipment

- Removes milkstone from bulk tanks, pipelines, utensils and dairy equipment
- Combines high level of phosphoric acid and non-foaming detergency to remove stubborn mineral deposits
- Leaves stainless dairy equipment sparkling clean
- For CIP (clean in place) and manual use

# **Directions**

### CIP CLEANING OF PIPELINES, MILKING MACHINES and BULK TANKS

- 1. Immediately after milking, flush entire system with warm  $(100^{\circ}F)$  water until the water runs clear.
- 2. Circulate a solution of **TURBOLINE, SANITERGENT MARK X** or **CHLORINATED PIPELINE DETERGENT** according to their label directions. Hand brush all parts not coming in contact with the solution.
- 3. After cleaning, rinse thoroughly with water at 120°F and allow to drain.
- 4. Acid rinse with a solution of STEROSOL MILKSTONE REMOVER AND ACID RINSE at a rate of 1 ounce per 5 gallons of warm water, to prevent milkstone buildup and water spotting. Twice each week, instead of acid rinsing, rinse with a solution of STEROSOL MILKSTONE REMOVER AND ACID RINSE at a rate of 1 ounce per 2 gallons of 120°-160°F water for 10 minutes for the control of milkstone. Rinse with water and drain.
- 5. Before reuse, sanitize with a solution of **HYPO-CHLOR 6.40** at a rate of 1 ounce per 2 gallons of water (200 ppm) per label directions, or follow local health recommendations. Drain the used solution from the equipment and air dry.

DO NOT RINSE.

For manual cleaning directions, see label.

Chemical Characteristics						
Appearance	Orange Liquid					
Biodegradable	Yes					
Corrosive	Yes					
DEA-Free	Yes					
Fragrance	Acidic					
Non-Flammable	Yes					
NPE-Free	Yes					
NSF Certified	No					
pH (concentrate)	<0.5
