

Quik

Clothes Washing Detergent Concentrate

As an improved, scientifically compounded detergent, *Quik* guarantees cleaner clothes, sheets, linens and other washables.

Quik whitens and brightens clothes without the use of bleaches so colors come out brighter. *Quik* is safe to use on all materials (cottons, linens, woolens, silks, synthetic fabrics, etc.) and lengthens the life of your clothes.

Quik is especially designed for industrial and institutional use where the limit on phosphate content has been exempted. As a concentrate, less *Quik* is required per load. This makes it very economical to use.

Quik Clothes Washing
Detergent Concentrate
ST-1080, 50 pound drum
