

D-Lime-X

D-Lime-X makes your whole food service or refreshment facility sparkle. *D-Lime-X* is used to remove and prevent limescale and water spots on glassware, drain boards, fountains, steam tables, coffee urns, stainless steel, mechanical dishwashers, counters, dispensers and napkin holders.

Use *D-Lime-X* to destain china, plastic cups and plates. It also cleans silver and aluminum.

D-Lime-X
ST-206, 1 gallon

ST-No.	Size	Case Weight
ST-206	4 x 1 gallon case	38 pounds

Directions

General Cleaning and Limescale Removal

Make up a solution by adding 2 fluid ounces *D-Lime-X* to one gallon water. Use for general clean-up of restaurant fixtures by wiping on solution, then wiping off with a clean dry towel.

D-Lime-X can be used full strength for the removal of lime deposits from mechanical dishwashers, drain boards and other equipment. Soak for 10 to 15 minutes, then brush and rinse.

Manual glass, equipment and utensil washing

DEPENDING ON THE WATER HARDNESS, USE FROM 1/2 TO 1 OUNCE *D-LIME-X* PER THREE GALLONS OF WATER IN THE FIRST TANK.

1. Equipment and utensils should be pre-flushed and, when necessary, presoaked to remove gross food particles and soil.
2. Glass, utensils and equipment should be washed in water having a minimum temperature of 110°F/43°C and containing the prescribed dilution of *D-Lime-X*. Water should be kept clean by changing it frequently.
3. Equipment and utensils should then be rinsed free of detergents and abrasives with clean water.
4. Following washing and rinsing, all utensils and equipment should be sanitized by immersion in a solution of Steramine or Hypo-Chlor 6.40 for at least 2 minutes, or for contact time observed by governing sanitation code.
5. After sanitation, all equipment and utensils shall be air-dried. NO POTABLE WATER RINSE is permitted.

Chemical Characteristics

Abrasive.....no
Corrosive.....yes
