Directions

Prepare the udder wash solution by adding 1 ounce of *Controlled Iodine Udder Wash* to 3 gallons of warm 100-110°F water. When diluted, solution provides 25 ppm titratable iodine.

Prior to milking, wash and massage the udder and teats with a solution of *Controlled Iodine Udder Wash*. Apply solution using a single service paper towel for each cow. Do not reuse towel or dip used towel back into solution. Dry udder and teats with a second single service paper towel.
