

Bar Glass Sanitation Program

The *Bar-Master*® program includes a complete line of products for cleaning and sanitizing bar glasses. All products are packaged in premeasured packets to create perfect strength solutions. *Bar-Master* cleaners produce sparkling clean glassware without streaks, odor, or residue.

Proper Bar Glass Cleaning:

Proper bar glass cleaning produces a thick creamy foam head which results in more glasses per barrel adding up to maximum profits. For the cleanest bar glasses, consider the following:

- Electric brushes offer the most effective cleaning process.
- Never use dish detergents. Many are petroleum-based and will leave an oily film, eliminating foam head.
- Dishwashing machines are not effective because they lack the brushing process and will leave a greasy film.
- Bleaches may sanitize, however they leave offensive odors that will affect the beer taste.
- After sanitizing, place the glasses on the drain board to air dry. Do not towel dry.

ST-765
High Suds Bar Glass Cleaner
 Specifically formulated to clean glassware. For use with manual brushes and when washing glasses by hand.

ST-766
Low Suds Bar Glass Cleaner
 Minimal sudsing with excellent rinsing ability. For use with electric brushes.

ST-767
Steramine®
 Sanitizes glassware and utensils. No potable rinse is required after sanitizing. Air dry. Do not towel dry.

ST-768
Powdered D-Lime-X
 Conditions hard water to prevent water spots on glassware and utensils. Add one half to the first sink and one half to the last sink for more effective cleaning and sanitizing.

4 STEPS FOR BAR GLASS CLEANING

1. Wash	2. Rinse	3. Sanitize	4. Air Dry
<p>Wash glasses, fill sink with 3 gallons of water. Add contents of one packet of Bar Glass Cleaner. Use ST-765 with manual brushes or ST-766 with electric brushes.</p>	<p>Rinse with clean water. Keep water clear. Change rinse water often.</p>	<p>Sanitize glasses by immersion. Add the contents of one pouch of ST-767 Steramine per 3 gallons of water for 200 ppm active quaternary.</p>	<p>Drain until dry. DO NOT TOWEL DRY.</p>
